# VINSKA KARTA

## WINE LIST

### DRAGI GOSTI,

Dobrodošli u restoran Zinfandel's, nazvan po istoimenom popularnom kalifornijskom vinu koje potječe upravo iz Hrvatske, od vinske sorte grožđa crljenak kaštelanski ili tribidrag. Sve je počelo tridesetih godina devetnaestog stoljeća kada je ova sorta stigla na Istočnu obalu Sjedinjenih Američkih Država iz Carskog rasadnika u Beču. Trebalo je proći još stotinu godina prije nego što su tridesetih godina prošloga stoljeća zasađeni prvi vinogradi zinfandela na Zapadnoj obali. Od tada više nije bilo nikakvih dvojbi niti za vinogradare niti za ljubitelje vina - u Kaliforniji zinfandel doživljava svoj procvat. Danas se zinfandel sadi i u mnogim predjelima svijeta, kao što su Južna Amerika, Južna Afrika i Australija. Već 1967. počelo je istraživanje porijekla zinfandela. Ono je dugo vremena predstavljalo pravu zagonetku za znanstvenike, koji su isprva smatrali da potječe od talijanske sorte "primitivo" iz Puglie. Nakon dugotrajnih istraživanja provedenih diljem Jadranske obale na posljetku je utvrđeno da su korijeni ove sorte u Hrvatskoj. Prvi "osumnjičenik" bio je plavac mali. Međutim, nakon dugogodišnjih ispitivanja nekoliko stotina uzoraka DNK-a sa sigurnošću je potvrđeno da se zinfandel razvio iz hrvatske sorte grožđa crljenak kaštelanski. Sada, kada je ova tajna razjašnjena, prepustite se čarima naše vrhunske kuhinje kao i nenadmašnoj ponudi naših podruma.

### DEAR GUESTS,

Welcome to the Zinfandel's restaurant, named after the popular Californian wine, which has its origins in Croatia, in the wine grape variety Crljenak Kaštelanski or Tribidrag. It all began in the 1830s, when this variety came to the East Coast of the United States from the Imperial Nursery in Vienna. And it took another hundred years for the first Zinfandel vineyards to be planted on the West Coast in the 1930s. Since then, there has been no doubt for wine growers or wine fans alike - Zinfandel reached its peak in California. Today, Zinfandel is planted in many areas of the world, such as South America, South Africa and Australia. Studies on the origins of Zinfandel started in 1967. For a long time, it was a real mystery for scientists; at first they believed it derived from the Italian variety Primitivo from Puglia. After lengthy studies conducted along the Adriatic coast it was finally determined that the roots of this variety are in Croatia. The first 'suspect' was the 'Plavac Mali' variety, but after years of examining hundreds of DNA samples it was definitely confirmed that Zinfandel developed from the Croatian variety Crljenak Kaštelanski. Now that this mystery has been clarified, you can enjoy the charms of our superb cuisine and the exquisite offer from our wine cellars.
